SMART DISPLAY SOLUTIONS

hispaled.es

Smart ®

Research > Design > Manufacture > Installation > Content > Customer Care

Hispaled is a Spanish company specialising in the design and manufacture of LED-based solutions for lighting and digital displays, with over 15 years' experience.

Based in Madrid and A Coruña, HISPALÉD's story began 15 years ago, primarily manufacturing digital signage screens for transport infrastructure. Today, we remain committed to our passion for **manufacturing LED screens and installing LCD displays**. We are dedicated to introducing new products and services to ensure our customers' complete satisfaction, such as the provision of digital content.

We have a team of over **35 qualified professionals** across all areas, enabling us to provide the best possible solutions for every client, location and purpose. With facilities covering over **2,500 m²**, we can offer **delivery times from four weeks**, depending on the scale of the project. Our products come with a **standard three-year warranty**, which can be extended on request.

A wealth of practical information available via web services accessible from your screen

SmartDisplay®

With SmartDisplay®, we provide you with remote control of your display installations, giving you full control and the ability to optimise your content.

CONTENT MANAGEMENT SOFTWARE

It allows you to add new screens to the same platform at any time, and is supported by a wide range of operating systems: Windows, Android, Linux, Tizen, webOS, etc.

- Easy-to-use digital signage CMS
- Easy design creation
- Smart scheduling

ADVANTAGES

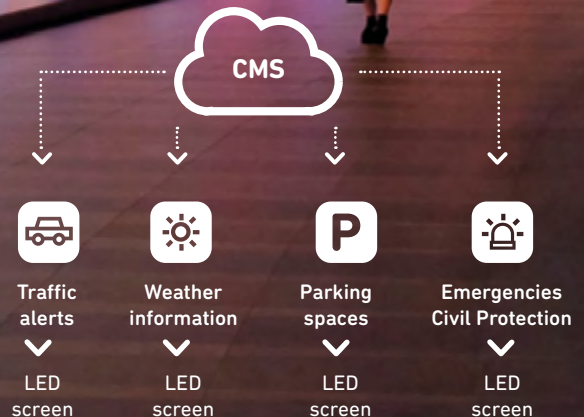

✓ IMPORTANT NOTICE FOR USERS

A wealth of practical information is available via web services that can be accessed from the screens or in connection with the service the user is using on site.

✓ FREE AND OPEN-SOURCE SOFTWARE

Xibo® is free, open-source software that enables the development and customisation of on-screen communication solutions.

WEB SERVICES

✓ CORPORATE AND MARKETING COMMUNICATION

The screens can be used in an eye-catching way to dynamically promote special offers, discounts and so on, thereby boosting sales.

Digital advertising **boosts sales**
through content that offers **added value** to customers

SmartDisplay®

With SmartDisplay®, we offer a unique service experience, where manufacturing, installation and management go hand in hand to ensure the best possible communication.

SERVICE TAILORED TO YOUR NEEDS

We offer a personalised service and dedicated support for every client, providing the guidance you need to choose the solution best suited to your requirements.

THE BEST CHOICE VALUE FOR MONEY

As manufacturers, we offer screens made from high-quality materials at competitive prices. We are a team of highly qualified designers, engineers and production staff.

THE BEST MATERIALS

Our screens feature an anodised aluminium frame and are fully sealed, thereby preventing faults and ensuring a long service life thanks to their corrosion resistance.

COMPREHENSIVE DEVELOPMENT

We cover the entire business chain, from mechanical and electronic design and associated information systems through to installation and after-sales service.

WE WILL EXCEED YOUR EXPECTATIONS

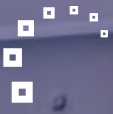

We turn your requests into creative ideas, always striving for the best results, high quality and the most competitive prices on the market.

A SOLID TRACK RECORD

Hispaled's experience over the years has resulted not only in guaranteed quality in every product, but also in the development of unique creative ideas.
